### **100% ePAY FOLLOW-UP**

Recently, the Association announced that applications submitted on January 1, 2012, or later will be required to use ePay. eFinance will continue to be available.

Here are some of the questions recently received by the Association:

#### ***What Is The Current Success Rate Of ePay?***

Here is a snapshot overview:

- 98 of the top 100 largest producing agencies use ePay.
- Since implementation in July 2008, over \$200 million in premiums has been paid through ePay.
- 464 agencies are currently signed-up to use ePay.

#### ***What Are The Advantages Of Using ePay?***

There are many reasons for using ePay. Here are several of the more significant reasons:

- ePay allows for the Association to be “open” 24/7, 365 days a year. Holidays and inclement weather are not a factor.
- The current amount due is always paid. There are no overpayments or underpayment.
- Rewrites and new business submissions are not forced into the waiting period due to a late payment that was sent through the mail.
