NEW eFEATURE Inspection Ordered

In response to producer inquiries, a new eFeature has been added to the Producer Policy List Feature at scwind.com.

A new column has been added that is labeled "Inspection Ordered." If a date appears, this is the date that a new inspection has been ordered by the Association.

Should a client contact you and ask you to verify that the letter announcing an impending inspection is valid or legitimate, you can verify that an inspection is pending via this feature.
